LOS DI CLOSE TO YOU

LOS DI is a Spanish manufacturer of products for industrial hygiene with over 28 years of experience in the sector since it began in 1995.

Its main functions are the design, manufacture and commercialisation of an extensive range of products for communities, all with their own designs and aligned with market requirements.

Our objective is to improve health and well-being in society, making hygiene accessible at any time and in any place, with a sustainable and responsible production model based on the design, differentiation and functionality of soap dispensers, paper towel dispensers, hand dryers and other hygiene accessories.

Leadership and quality guarantee CLOSE TO YOU

LOSDI consolidates its brand and extensive business experience in the sector, committed to and leading based on quality, innovation and cutting-edge technology. With an extensive and carefully selected range of products, LOSDI is placed as a reference in design, distinguished from its competition and complemented by characteristics and materials with maximum functionality.

LOSDI works CLOSE TO YOU. Close to the professional, providing a quality service with the best guarantees, and close to the end client, with a quality product, innovative design and absolute practicality.

Values

Innovation and quality technology, respect for the environment and international projection.

The LOSDI team strives to offer the best connections and guarantees between the company and its clients, responding to the needs of each specific case.

A commitment to deliver is generated in orders and excellent after-sales service is offered to the client. To be able to guarantee all of these aspects, we take into account the best efficacy of deliveries, focused on the retail channel, generating a good relationship between clients, as well as the guarantees and specifications offered in each LOSDI product.

Markets

Today, LOSDI is present in over 45 countries thanks to the quality and constant innovation of its products. From our production centre, located in the province of Alicante, we design, manufacture and distribute all our products to countries in Europe, Africa, America and the Middle East.

Following the maxim “think globally, act locally”, we aim to satisfy the different needs of our clients located in different countries, seeking the maximum adaptability of our dispensers to the different consumable variants with which they are used.

Clients

The main LOSDI clients are manufacturers of paper and forest products, chemical manufacturers, paper converters, warehouse operators, interior design and catering companies, distributors of business materials and equipment, distributors of office materials, and communities, among others.

Quality and Environment

LOSDI has an integrated Quality and **Environmental Management System**, in accordance with the **UNE EN ISO 9001:2015** and **14001:2015** standards, with the aim of guaranteeing our clients' satisfaction while taking care of the environment, reducing environmental risks. This system is certified by **Bureau Veritas**, an accredited certification entity, ensuring compliance with the legal regulations and requirements applicable to our products and services.

Registration of Carbon Footprint

Our commitment to the climate is to reduce our environmental footprint; therefore, since 2020 we have annually applied a **CO2 emissions reduction plan** and have **registered our Carbon Footprint and CO2 offset and absorption** projects of the Ministry for ecological transition and demographic challenge.

Corporate Social Responsibility

Furthermore, we work with other sustainability projects that we communicate annually in our **Corporate Responsibility Report**, which you can find on our website www.LOSDI.com.

SUSTAINABLE DEVELOPMENT GOALS

Since we began, at LOSDI we have always shown a special interest in integrating our company into society in a sustainable way. We therefore go a step further and subscribe to achievement of the **Sustainable Development Goals (SDG) of the 2030 Agenda of the UN**, defining a long but rewarding path toward building a better world.

The SDGs are an initiative driven by the UN, intending to address vital issues for optimal development of the planet, such as climate change, economic inequality, innovation, sustainable consumption, peace and justice.

LOSDI subscribes to this Global Compact to demonstrate its responsibility, and since 2021 we have decided to take specific actions in our organisation and to contribute by aligning ourselves with the following objectives:

SDG 3: Developing a training plan for the well-being and health of our employees (emotional management, time management, stress reduction, etc.).

SDG 8: Maintaining our quality management system, certified under the ISO 9001:2015 standard, from which we establish annual objectives based on compliance with our Quality and Social Responsibility Policy.

SDG 9: Development and design, transforming our products and processes with sustainable criteria (environmental criteria, proximity, raw materials and efficiency of resources).

SDG 12: Reduction of consumption in production (use of recycled plastic, reduction of packaging, application of environmental criteria to subcontractors and suppliers, etc.).

SDG 13: CO2 emissions reduction plan as a commitment to our Carbon Footprint and its registration, CO2 offset and absorption projects of the Ministry for ecological transition and demographic challenge (since 2020).

Our lines encompass all types of characteristics for resolving the technical and aesthetic needs of our clients; from more economical ranges that do not disregard elegance and resistance, to high range, premium products. Everything depends on the tastes of the consumer.

HAND DRYERS

HEPA FILTER

CS-650

BLINDER

This model of hand dryer with **HEPA Filter** has a narrow air outlet which **blocks the passage of bacteria and viruses with 99.99% effectiveness**, for safe hand drying. Its **Ecofriendly System** allows time and consumption savings thanks to a temperature sensor which deactivates the hot air mode from approximately 25°C. **10-15 second drying time**. Certifications: CE and SGS.

HAND DRYERS

CS-200-X / CS-400-X

ELEGANCE

This model of hand dryer presents a compact, robust design with tamper-proof characteristics. Suitable for toilets with high, intensive transit. Maximum power and air flow. Different finishes: White or chrome ABS. Operates through activation of a proximity sensor. Certifications: CE and SGS.

INSECMATIC

Dispensers and insect exterminators

Keeping the atmosphere free of insects is a necessary hygienic measure in professional spaces such as kitchens, the food industry and catering. The LOSDI product range dedicated to this purpose provides all options available for adaptation to any professional requirement.

AIR FRESHENERS AND INSECTICIDES

CL-401-T

INSECMATIC

Manufactured in high quality **polypropylene** and fibre, the digital air freshener dispenser for loads for perfuming atmospheres distributes the fragrance evenly. It has a power and low battery LED indicator. Programmable: hours, days and/or weekends **250 ml.** loads. It has a LOSDI security key, supplied with the product.

ELECTRIC INSECT KILLER

CI-3X15-L

INSECMATIC

The stainless steel body and grille make it a high quality, resistant electric insect killer, with a lower metallic tray. It has a switch and automatic voltage discharge. It incorporates **3 ultraviolet tubes** to attract insects, eliminating them when they come into contact with the electrically charged interior grille. Use: commercial-industrial. Application: industrial areas for food preparation with resistance to dust.

INSECT KILLER WITH ADHESIVE CI-1X18-AD

INSECMATIC

High quality, resistant, **silent** insect killer with lacquered metal body. It has an **adhesive film** on the interior, **free of toxic products**. It incorporates **1 ultraviolet tube** to attract insects, eliminating them by immobilising them on the adhesive film. Use: Commercial-Industrial. Application: Industrial areas for food preparation and supermarkets, restaurants and kitchens. Film durability 1 month.

CI-1X18-AD

Reference	Voltage	Frequency in Hertz	Coverage area	Number of tubes	Power of the tubes	Measurements (mm) H x W x D	Material	Packaging	Pallet units
CI-1x18-AD	220 - 240 V.	50 Hz.	60 m²	1	18 W.	155 x 465 x 185	White lacquered metal	6	72

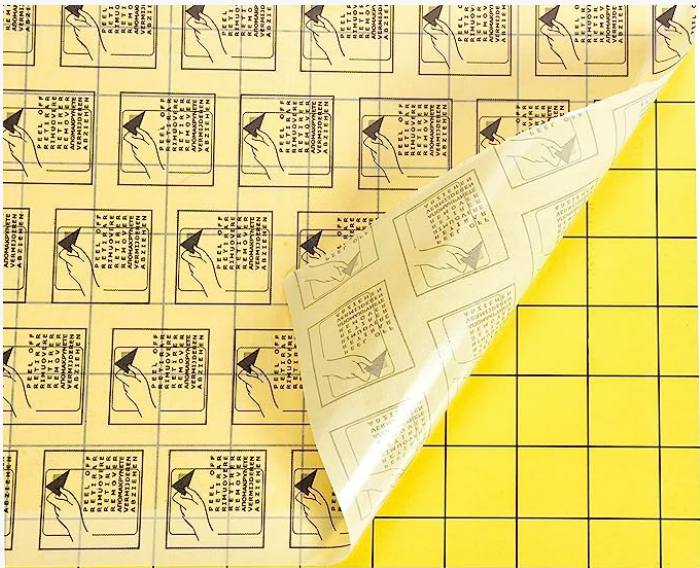

ADHESIVE FILMS

AD-1X18

INSECMATIC

Cardboard film with yellow adhesive, with a **solvent-free pressure sensitive adhesive glue, with a specific food attractant**. High resistance to UV light, which prevents the adhesive detaching and the loss of adhesion, and anti-dripping highly resistant to adverse environmental conditions. 1 side adhesive for all types of flying insects (houseflies, common house mosquitoes, drain flies, wasps, fruit flies, moths, etc.). CE certification.

ACCESSORIES

*Hair dryers, bins, rails
and supports.*

LOSDI offers professionals a range of products dedicated to the adaptability of public spaces for people with reduced mobility, as well as other products that complement and help to guarantee complete hygiene and comfort in all public toilets.

HAIR DRYERS

CM-0321

ACCESSORIES

Hair dryer made from **ABS**, a robust model ideal for toilets with high, intensive transit. Modern, functional design, it integrates into any space. Its **three position button** supplies warm-hot air and has **two speeds**. Use: Hotels, hospitals, gyms, sports centres and centres for the elderly, etc. It has a wall bracket for wall mounting and a narrow outlet diffuser. Certifications: CE
